CAT EXESTRENTIAL CONVENTION. The time and place of the session of the Whigh National Convention, for the nomination of candidates for the Presidency and Vice-Presidency, to succeed Martin Van Buren and Richard M. Johnson in 1841, are at length detertained upon. We copy the following from the last National Intelligencer.

"it having been proposed by various meetings of the opponents of the present Administration, in different parts of the United States, that there should be a general meeting of Delegates from all of the States, for the purpose of agreeing on and recommending suitable persons as candidates for the office of President and Vice President at the next election; and a desire having been express, d by several of said meetings, that the time and place of holding such meeting should be fixed by apposition members of Congress, those members have authorized in to announce that, is compliance with what thus spprairs to be the general wish, they have met and consulted on the subject, and after due consideration and reflection, they are of opinion that, the Borough of Hairisburg, in the "State" of Pennsylvania, is a suitable place, and the first Wednesday in Dec.; 1839, a proper time, for holding a general Meeting for the purpose above inentioned, to be composed of Delegates from all the States in proportion to their representation-in the Houses of Congress.

On Saturday, at about the usual hour for the adjournmen of the House to Monday, Mr. Carebreleng introduced his bill authorising the issue of \$10,000,000 of Treasury notes, the House was in committee, and the Sub treasuryites seemed to press through their mensusre. Mr. Webster presented a men orial from the itizens of Stonelian, on the subject of the Cherokee Treaty. Mr. Webster said it was evident that a very general feeling existed in the country, that injustice had been done to the Cherokees that it was founded in mjustice, and obtained by fraud and bribery and that it is due to honor, justice, and national character, that the winde proceedings should be revised in a spirit of fairness and equity, and all done that can be done to do right to these People. He fervently hoped those who had the power aver the case would give their immediate and serious attention to the aubject.

Several other memorials of a similar kind were presented, and all were laid on the table.

Mr. Williams asked leave, in pursuance of rotice, to introduce a bill for the survey of the North Eastern Boundary of the United States, and supported his motion by a speech. VIGILANCE!
The activity, zeal and perseverance now manfested by the Lucu-tocos of Maine are worthy a better cause. We entertain no doubt of the success of the Whige at the next election in that the amprance that our friends there are to the full as alert and as indefatigable as their oppo-

All we have to say to them is that they have an experienced, an enterprising and a desperate fee to contend with. As evidence of this, we make the following extract from the Eastern Argus of Tuesday last, and recommend to the Whigs both of New Hampshire and Maine to consider it as addressed to themselves and to govern themselve accordingly.

"Every town should organize forthwith. Let the delegation from each be prepared to report the names of its town Committee to the State Convention. The duties of the Town Committees are something more than nominal. they should call Caucuses, that the democracy may consult and advise together, and cultivate harmonious feelings they should take measures for increasing the circulation of democratic papers, and particularly for furnishing every wavering or doubtful man with a newspaper, and for supplying the wants of all who feel too poor to subscribe themselves. Every Committee should not only divide their town into school districts, but subdivide it into much smeller sections, appointing for each a rullying committee of such active and energetic men as will be sure to do their duty. These things must not be omitted, it we would carry the State propuls standed to, no eppetiensible need be

RIOT AND APSON IN PHILADELPHIA. We have received an account of a riot which ook place last evening inside of the large new building called the 'Pennsylvania Hall,' lately onened in this city for scientific and political discursions and lectures; including the discussions of the question of ABOLITIONISM. As there is a part of the communication which is calculated to bring shout a renewal of diagraceigh scenes we shall omit its detail, giving its substance. Last evening the Hall was crowded lotal about three thousand persons, to hear a lecture by Mr. Garrison and others.

Of the audience about one half were females It was promiseuously composed of white and

At the close of Mr. Garrison's address, a mob outside was very noisy. Mrs. Maria W Chapman of . oston then addressed the meeting for reversi minutes. She was followed by Mrs. Angelica E. Grimke Weld Lucretia Most, of this city and Abny Kelly. In the mean time the mob increased and became more unruly and threw various missiles at the windows, no further injury was done than breaking the glass, and be blinds inside protected the audience. At a quarter before ten the company retired amid the cries and greams of the mob who blocked up the streets on every side. One black man wer knocked down with a clob.

The proprietors of the Hall have called upon the city to pay the amount of dunages. The Police will, we trust, use every exertion to discover and punish the riotors, and in the mean inst. time withing sirould be done to excite popular outrage. For the present Philadelphia has been acfficiently disgraced by a single riot.

DESTRUCTION OF THE PENNSYLVA. NIA HALL.

In another part of this paper will be found an account, from the National Gazette, of violence done to the Pennsylvania Hall, on Wednesday evening. During most of the day, yesterday, utmost politeness by the officers of the squad large numbers of persons were standing round the tian, and it was evident that there was a purpose of injury.

in the alternoon the Mayor went to some of A passenger who came by the U.S. ship Con- the leading members of the society owning this building, and represented to them the great danger of continuing to hold their meetings; and ne especially urged upon them the propriety of not assembling that evening, as he had every reason to believe that-there was an organized band prepared to break up the meeting, and the American schooner Eliza Ann was at Mata- perhaps do injury, to the building and crowded as the walk must be by the company, this could not be done without personal injury and loss of life.

It was agreed to forego the evening meeting, and the mayor took the keys, and went out and addressed the persons then in the street, stating that there would be no meeting, and requested them as good citizens to retire. The people che-ring the mayor, who returned to his office, placing persons to bring information of any attempt at injury, ralling ground him at his dispesable face, and having some volunteers.

Early in the evening notice was given that a drowd had come down the street and was attacking the North side of the Hall; the mayor hastned up Fifth street to Cherry with his force, and when he met the crowd, which was dense and numerous, he sprung his rattle, and his polise colled upon the people to sustain the Mayor; but not one person appeared to give nid.

It was than seen that those who had assailed the building, had broken open the doors and lower windows obtained enterance and were beating out the upper windows. By this time the Mayor and his police had attempted to arrest the conrese of distruction, but they were assailed with clubs, and almost every one sewounded. Col. Welmough, the Sheriff, also made an attempt to restore peace and save | \_\_\_\_ of Chester and Lincoln and others inte the building, but he was attacted, severely ested in the county of Penouscot, humbly rep bruised, and narrowly escaped.

How great the prostration of all the corporeal powers after a copious bleeding On the contrary, what agility and strength is after a dose of this medicine, the body is indeed lightened of a load. Thousands of the most respectable cuttoms of the United States will be referred to with pleasure by Dr B who have for many years been in the habit of being blud-as often as tous times in a year, and whose constitutions in consequence, were becoming weaker and weaker, but who, since they have made use of these Pills, have never lost a drop of their precious blood. When any of their old symptoms appeared, instead of running to a Doctor and havnig a ven opened, they have swallowed six or eight Pills, which soon removed the villated humors that were impeding the blood in its circulation. Those ensible people, simply by the use of these invaluable Pills, are mereusing every day the powers both of body and mind, which, by the practice of bleeding, were both becoming dreadfully impaired

This is to certify that Phomas S-Biown of Greenwich, Ct, was taken -ith a cale, numb 'se' ing, on the 13th of June last. The pain was excessive in all parts of his body, and the difficulty in breathing was such as almost to cause strangulation. He was reduced to a mere skeleton, and finally gave himself up to death. After being in this miserable state nearly two months, he saw an advertisement of Dr. Brandreth's Vegetable Universal Pills, and immediately sent by Cant J. Waring of Greenwich for a box, and found relief in the course of a tew days, which encouraged him to persevere, and now having taken them for about by Willi four months according to the direction, is entirely reed by recovered, and so far as we can judge, in consequence of taking the above Pills, which we have also used in our families, and have found them in
